

PTVC REMINDERS AND UPDATES FOR SPRING 2022

- **Tuition Assistance Process Updates**

New military branch checklists coming soon to PTVC website.

***ArmyIgnitED students please email sponsorbilling@asu.edu** and let them know you plan to use TA for the Spring 2022 Term.

- **VA’s Enrollment Verification Requirement for Post-9/11 GI Bill® students**

Students are required to verify their enrollment and the VA recommends the option to **verify enrollment easily and securely via text message**. [Read more here from VA’s website](#).

This requirement is only for Post-9/11 GI Bill and does not impact other benefit programs.

- **ASU Sync Courses**

Update as of December 2021: Congress passed legislative action which will further extend the GI Bill COVID provisions through June 1, 2022. ASU Sync courses will continue to be able to be certified as in person/resident credit(s).

- **2-Step Certification Process**

By VA direction ASU certifies first a student’s course credits with \$0 reported for tuition and fees. The enrollment certification will be amended with actual tuition and fee amounts after the respective 100% refund deadlines for A, B, or C-sessions.

- **Tuition and Fee Deferments**

ASU Student Business Services places tuition and fee deferments for those students who have elected to use VA Benefits via submission of their VA Enrollment Activity Form to the Pat Tillman Veterans Center. These tuition due dates are set for the 25th of the month in which the semester concludes and is updated by the first week of class for those students who have completed their VA Enrollment Activity Form.

- **VA Wire Payment Receipt and Posting**

VA processing times vary, but students can expect to see payments posted approximately 2-3 weeks after their VA payment is received by ASU. All payments are reviewed for accuracy prior to posting.

- **Financial Aid Disbursements and using Post-9/11 GI Bill® (Chapter 33)**

For students who may need their Financial Aid funds early in the term, ASU Student Business Services can place an Anticipated VA Payment on student’s account. To avoid creating balances due, students are encouraged to wait until their actual VA payment is received and posted as the *Anticipated VA Payment amount is only an estimate*. If you would like to request this, please complete the [Anticipated Payment Request Form](#).

Questions about your Anticipated VA Payment, please email: Chapter33Billing@asu.edu

- Please allow up to 5 business days for ASU to process your Anticipated Payment Request Form.
- Need help downloading your Certificate of Eligibility? Click [here](#).
- Questions about your Financial Aid, please contact: [ASU Financial Aid](#)

Note: *Request form is only for students using VA Chapter 33. For students using VA Chapter 31 this form does not apply.* VA Chapter 31 authorization of payments are sent directly to ASU prior to certification for the term.

- **Enrollment Changes After 100% Refund Deadline**

ASU encourages students to carefully evaluate the financial impact of withdrawals made after the 100% refund deadline. Although ASU tuition charges on a student account will not be adjusted due to the ASU refund policy, the amount the VA will cover will likely be reduced, thus creating an account balance for the student to cover.

- **Tuition and Fee Debt for Post-9/11 GI Bill® (Chapter 33) Students**

Under Section [1019 of Public Law 116-315](#), debts created by student withdrawals after the 100% refund deadline will be billed back to ASU. ASU will hold Chapter 33 students responsible for this debt.

Example of Debt Allocation when student withdraws after the 100% Refund Deadline

VA Payment received/posted	\$1,000.00	
VA sends debt letter to ASU	-\$500.00	
Account Balance	\$500.00	*Student Owes

Please contact PTVC via email ptvc@asu.edu or via phone (480) 965-7723 if you have any questions.
